

CORRECTIVE RETRIEVAL AUGMENTED GENERATION

Presented By:
Mohammad Tanvir Hasan
MSCS Student
University of Arkansas at Little Rock

Introduction

- Retrieval Augmented Generation (RAG) is to augment generation capabilities
- Corrective RAG is adding web search into the workflow
- Compensating for a lack of
 - LLM Knowledge
 - Document information

Workflow

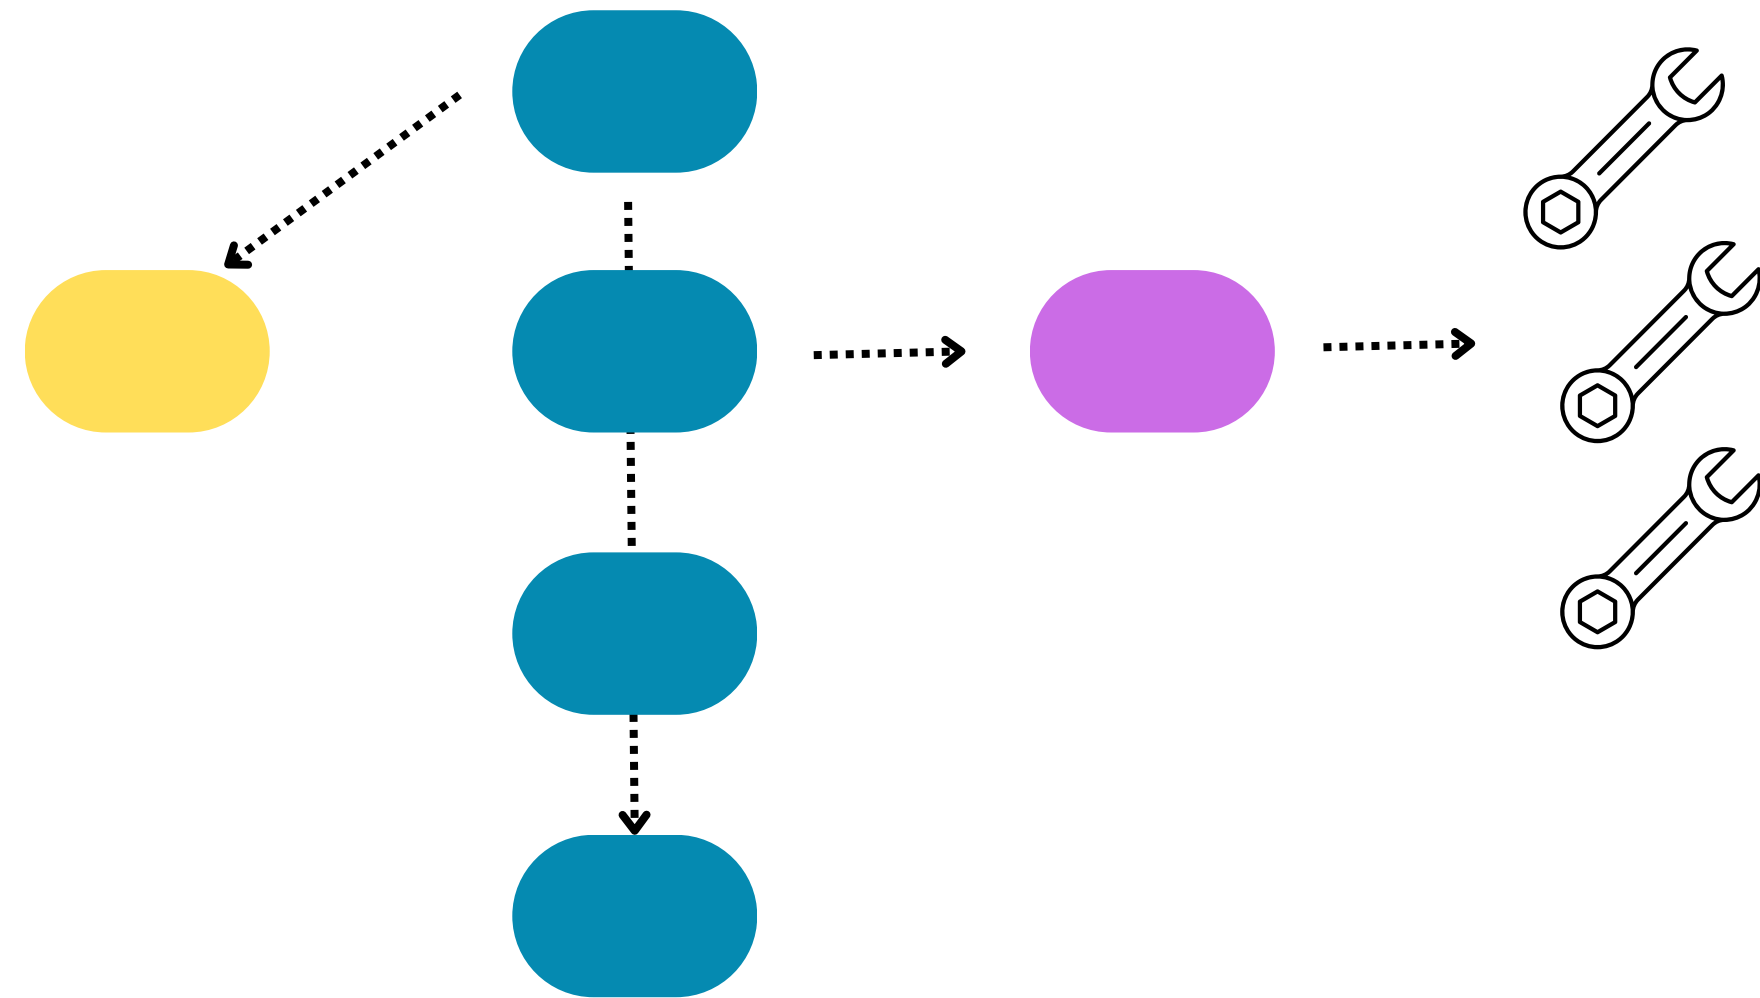

Industry Standard

Tool Use

- Web search is now integrated as a tool

Tool Use

Performance

Applications

Method	POPQA	Biography	Public Health	ARC-Challenge
RAG (baseline)	45–55%	70–80%	30–55%	40–55%
CRAG	48–65%	72–95%	40–80%	48–70%
(Improvement)	+3 to 10%	+2 to 15%	+10 to 25%	+8 to 15%

Getting Out of Colab

Applications
